

PRESS RELEASE

RainCrowd Releases 6th Single For 2021

Band acknowledges faith-based single was no accident.

For Immediate Release

November 12, 2021

Linden, NJ

NJ-based indie rock alternative band, RainCrowd, announces the release of their new upcoming single entitled, "Relax".

Relax is a ballad song with praise in mind, claims frontman and bassist, Chot Ulep. A conversation with the Almighty and acceptance of what seems to be a hopeless situation. He admits the song was written at a time of "great challenge" while living in Los Angeles at the turn of the millennium. In the end, faith leads to peace of mind, he added.

RainCrowd's 6th single release for 2021 exemplifies the band's capability to put together a range of genres including alternative, slow rock, prog rock, indie rock, country, blues and Christian rock – all in one song!

As with their previous releases, the single was mixed and mastered by lead guitarist and sound engineer, Nico Capistrano. Ulep notes that while tracking was the least of the challenge, coming up with a final version took more time than usual because of song dynamics.

The release date for "Relax" is scheduled on November 25, 2021 and will be available at major music streaming platforms.
